## JUNIOR TENNIS TOURNAMENT

In the first junior tournament between the Coleman and Blairmore tennis clubs, held at Coleman on Saturday afternoon last, the Blairmore youngsters emerged victors, winning nine matches out of eleven. The following are the results of the events played:

Men's singles—J. McPhail beat I. Hayson, 6-4, 7-5; P. Farmer beat H. Clifford, 6-1, 6-2; W. Fraser beat B. Fraser, 6-1, 6-3.

Men's doubles—W. Fraser and D. Mackenzie lost to I. Hayson and H. Clifford, 6-5, 6-1; G. Lord and R. Upson beat R. Pattinson and L. Lindoe, 6-5, 6-4, 7-5.

Ladies' singles—B. Thompson beat M. Bell, 6-3, 6-1; L. Fraser beat E. Greenhalgh, 11-9, 8-4.

Ladies' doubles—B. Thompson and E. Bennett beat E. Fairhurst and M. Bell, 6-3, 6-2; L. Fraser and M. Thompson beat M. Price and D. Burns, 6-3, 6-2.

Mixed doubles—E. Bennett and J. McPhail lost to D. Burns and I. Hayson, 6-3, 6-4; L. Fraser and P. Farmer beat J. Pattinson and H. Dunlop, 6-0, 6-1.

## MORE AID FOR HOME BANK CREDITORS

Ottawa, May 28.—To supplement the provisions of the Home Bank Creditors' Relief Act of 1925 the sum of \$400,000 has been placed in the supplementary estimates tabled in house of commons Saturday night.

According to the purpose described in the estimates the money is to provide for payments: (a) To certain creditors having approved claims of over \$500, whose applications for relief were made after the expiration of 12 months from the date of the passing of the act, and (b) To creditors having approved claims of not more than \$500 when applied for.

If the party who stole gasoline on two or more occasions from Jack Hughes' Ford would call upon Mr. Hughes, he would gladly return to him the twenty-five cent piece which the thief evidently dropped beneath the car. Maybe there is a hole in the culprit's trouser pocket, and if so, Mr. Hughes would gladly say the bill if the mending is done by some local tailor. Also, the damage to the gas tank might be measured up in the presence of Mr. Hughes, who reserves the right to hit the first blow.

Examinations for first and second class certificates in mining and also for mine surveyor's certificates for the province of Alberta will be held in the Oddfellows' Hall, Blairmore, on June 6th, 7th and 8th. Examinations for the above certificates are being held in other centers of the province on the above dates.

Rev. Father George Bradley, S.J. of Campion College, Regina, will be in a week's mission at St. Anne's church on Sunday, June 10th. Father Bradley is an eloquent preacher and no doubt will be much enjoyed throughout the mission. Hours of devotion will be announced next week.

Mrs. Duncan left by this morning's local for Red Deer, to join her husband in their new home. Before leaving here, Mrs. Duncan was the guest at a number of farewell parties, one of which was tendered by the Crows Nest Chapter of the I.O.G.E.

## Diplomatic

"Doctor, if there is anything the matter with me, don't frighten me half to death by giving it a long, scientific name. Just tell me what it is in plain English."

"Well, sir, to be frank, you are lazy."

"Thank you, doctor. Now tell me the scientific name for it. I've got to report to the missus."

## DOMINION DAY WILL BE CELEBRATED IN BLAIRMORE

At a meeting of the executive of the Blairmore Branch of the Canadian Legion, B.E.S.L., early in the week, it was decided to sponsor a sports programme for Monday, July 2nd, Dominion Day.

Committees have been appointed and are now busy outlining a programme that will be attractive and interesting. The programme will include sports of various descriptions, baseball, tennis, etc.

An interesting feature of the day will be the Junior First Aid competitions, in which it is expected there will be a large number of entries from points west to Fernie and east to Pincher Creek.

It is also expected that a football match between Bellevue and Lethbridge will form part of the program.

Watch for later announcements.

In addition to the events mentioned above, the Blairmore Elks will stage their fourth annual carnival at the arena on Friday, Saturday and Monday, June 29th and 30th and July 2nd. Also the annual Kiddies' Day programme will be staged under the auspices of the Blairmore Unit of the Maie Workers, Union of Canada on the Thursday preceding, June 28th.

## COMMUNION AT ST. CYRIL'S

In St. Cyril's church, at Bellevue, on Sunday last, the first Communion class for children for the year was held. Rev. Father Duncanson officiating. With the following candidates present: Mila Gatto, Mary McIntyre, Elaine Scaddalari, Emily Kubasek, Hughie M. Lafferty, Lawrence McLafferty, John Morris, Mimma Zolli, Angelina Zolli, Isabel Zolli, Annie Senz, Elsie Andrew, Horkak, Elias Horkak, Mary Miramovics, Stella Miramovics, Marie Boyer, Frank Loney, Mary Pagnucco, John Trappells, Frank Racho, Mary Trappells, Esther Racho. After mass, the children were photographed, the girls looking nice in their white dresses.

## ELKS OF DISTRICT NO. 1 TO PICNIC AT PINCHER

At a meeting of representatives of Elk lodges of District No. 1, which includes Lethbridge, Granum, Macleod, Pincher Creek, Coleman and Blairmore, held yesterday, it was decided to hold the annual picnic and sports at Pincher Creek sometime during the middle of July, when Elks and their families and friends are expected to gather in large numbers for a big time. Bear the date in mind and start planning now for the big outing.

## SUB-INSPECTOR SCOTT RECEIVES APPOINTMENT

As we go to press we learn that Sub-Inspector Scott, of Medicine Hat, has received the appointment of Inspector of "D" Division of the Alberta Provincial Police, succeeding the late Inspector Fisher.

Sub-Inspector Scott was formerly stationed at Blairmore as sergeant.

## SUDDEN DEATH NEAR COSMOPOLITAN HOTEL

A very sudden death occurred near the Cosmopolitan hotel on Wednesday morning of last week, when the nine lives of Tabby, the kitchen pussy, were pulled completely out through the untiring efforts of two full-grown Alreadale dogs.

The murder was so completely effected that all the king's horses and all the king's men couldn't put pussy together again.

It is hoped that another life awaits Tabby in the other world.

Mrs. Thomas Beck is reported seriously ill at Fernie.

## BISHOP SHERMAN VISITS PASS

The Rt. Rev. Ralph L. Sherman, D. D., Anglican Bishop of Calgary, visited St. Luke's church on Wednesday evening. Rev. A. D. Currie conducted the service, the reading being taken by Archdeacon C. Swanson, M.A. of Lethbridge. At the beginning of his sermon, Bishop Sherman referred to his pleasure at being in the Pass again, and regretted that it was necessary to come on a week-day; this, he said, was due to claims on his time because of the greatly increased work of the diocese, particularly on Sundays.

Bishop Sherman delivered a most scholarly sermon based on Psalms 120 to 134, with particular reference to Psalm 121. The address was greatly enjoyed by the rather small congregation.

Later in the evening the Bishop proceeded to Coleman, where he confirmed several candidates. His address at our sister town was also a very able effort, and was highly appreciated. He left for Calgary on the evening train.

Some women acquire companionate husbands, and some marry golf players.

You can usually tell when a flapper has a fresh hair cut—her neck looks so clean.

Some men imagine they lead the bride to the altar, while the truth is that they are being towed in.

In Germany, on sandy soil in open places, pine seed is drilled in, exactly as we would drill in oats.

An Alberta printing office recently made a misprint in wedding invitations, using the words: "Your guests' names requested." Now a new addition is being made to the young couple's residence to accommodate the bulk of the guests. I know the secret. The gifts, while the poor printer's bill is unpaid, Scotch get them up themselves and sell them.

Let Us Celebrate

A year ago the people of Canada engaged with a very real enthusiasm in the celebration of Dominion Day, the Diamond Jubilee of Confederation. It was, of course, an especially memorable anniversary and for weeks and months many committees of public-spirited citizens spent long hours in planning and preparation for the notable ceremonies which marked the sixtieth anniversary of Canada's birth. The effect of that general observance of Dominion Day from sea to sea, and the carefully planned and well executed programmes, including educational and historical features of great value, was at once noticeable in the greater pride and renewed confidence in Canada and its future which was displayed by the Canadian people. The year which has since elapsed has been a year of expansion and prosperity throughout the Dominion. Steadily, even rapidly, the Dominion of Canada has grown in national stature and in international importance. It has commanded, and continues to command, an ever increasing interest in other countries, while outstanding men and women in realms of government, education, finance, commerce and industry, not only in Canada, but throughout the world, have referred to this Dominion as among the most favored of all lands, and the one country above all others which today offers the greatest opportunities and the brightest promise for the future.

The Diamond Jubilee celebrations of a year ago helped to arouse and to stimulate the national consciousness of the Canadian people, and, because no country can be truly great lacking a national spirit and consciousness, the celebrations last year have more than repaid all the time, thought and money on them.

It is not sufficient, however, to the cultivation and growth of a national spirit and national aspirations that the birthday of a nation be widely and fittingly observed once in every sixty or one hundred years. Individuals observe their anniversaries annually. Once a year every successful business establishment takes stock of its position, notes its gains or losses, and, in the light of the experience thus gained, plans future operations. Every year boys and girls reach that period in life when they grasp the inner meanings and depths of things to which formerly they gave little or no heed. A nation should, therefore, devote time and thought to a suitable recognition and observance of its national day in each and every year in order that its significance, and all that it really represents may be impressed upon the minds and engraved in the hearts of its youth.

This article is a plea, therefore, to the people of Canada that they should profit by the experience of a year ago, and that Dominion Day this year, and in each succeeding year, should be more generally observed than was the case prior to last year. True, it is not possible that such annual observance be on the scale of the Dominion Jubilee celebrations, but Dominion Day can be observed each year in something more than the rather perfunctory manner which prevailed in most places prior to 1927.

It is gratifying to note in the columns of the weekly papers of Western Canada that steps are being taken in an unusually large number of communities to again fittingly celebrate Dominion Day this year. But the number of such places could be largely increased, and it is earnestly to be hoped that in those communities where, as yet, no definite action has been taken to organize citizens' committees for a proper celebration of Dominion Day, 1928, no further time will be lost in taking such action. It is a duty we owe to the growing youth of Canada that they be taught to observe the natal day of their country, and that through observance of Dominion Day a true love for and pride in Canada be developed.

## International Conference Held At Regina

Third International Wheat Pool Conference To Be Held Soon  
The Third International Wheat Pool Conference will be held in Regina on June 5, 6 and 7 next. For the first time, representatives from co-operative organizations other than those engaged in the marketing of grain will be present. Various produce pools as well as consumer's co-operative organizations from several parts of the world will be represented at the Conference. Last year's conference was held in Kansas City, Missouri.

Bringing In Settlers  
During the first four months of the present year the Canada Colonization Association was responsible for the settlement of 224 families on 48,207 acres of land.

A new glass substitute is translucent and weatherproof and admits the ultra-violet rays of the sun. Its chief advantages are its flexibility and unbreakability—it is sold in rolls and by the yard.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid—the best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians for 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

## Takes Place Of Sight

Gauges In New Airplane Enables Pilot To Fly Blindly

An aeroplane which can find its own way about is the latest wonder. This has been invented by a French aircraft designer. A new set of gauges, which a pilot can learn to read in a few hours, takes the place of human sight.

Twelve French pilots were the first to give the new machine a trial. At the beginning each was inclined to spiral, and then to wobble a little, but when they had become used to their instruments, they were able to control their machine perfectly. They flew blindly to a point thirty miles away, turned, and came back to the take-off. The new invention should be invaluable for flying by night or in fog.

The highest peak in the Canadian Rockies is Mount Robson, in British Columbia. This mountain has an elevation of 12,972 feet above sea-level.

The judgment of Solomon was great, but he never tried to umpire a baseball game.

## Winnipeg Flying Field

Winnipeg Flying Club Expect To Have Flying Field in Western Canada

A flying field which, when work on it is completed, is expected to be the finest in Western Canada, has been secured by the Winnipeg Flying Club. It will be ready for the operations of the club shortly when two biplane planes will be received from the Dominion Government and the organization will start its summer flying. The field is 135 acres in extent, high and level, in St. James municipality. Hangars capable of housing half-a-dozen planes will be constructed and an imposing club house will be built on the Sackville St. side of the aerodrome. It is also planned to lay out tennis courts on the aerodrome for the use of the members and their friends. Half a hundred men, many of them war fliers, have already taken active memberships in the club and the number of associate members is growing daily.

## SAME SYMPTOMS IN MANY CASES

An Anaemic Condition Easily Recognized—Calls For a Blood Builder

In most cases of anaemia the symptoms are almost the same. The sufferer grows pale and easily tired after the least exertion. The appetite is feeble and the patient loses in weight. Sometimes there are head aches, and often inability to sleep well. As the blood becomes thinner and thinner, the symptoms become more pronounced and often there are fainting spells. All this shows that the blood in the thin and watery condition is the first symptom of this condition the patient should take Dr. Williams' Pink Pills, the most reliable blood-builder and nerve tonic known. The sole mission of this medicine is to enrich the blood, and when this is done all the distressing symptoms disappear. Among those who have reason to praise this medicine is Mrs. E. B. Patterson, Shambhoo, N.B., who says: "About four years ago I became very much run down. I could not eat, sleep nor rest, and I grew so nervous that the smallest things would annoy me. Eventually I grew so weak that I did not know how to move about without help. I was just a miserable wreck, and became very discouraged as I had tried many medicines which failed to help me. In this wretched state a friend urged me to try Dr. Williams' Pink Pills. I did so and before long found they were helping me. Gladly I continued taking the pills taking the pills, regained my health and strength and I have since continued in the best of health. Later my daughter became anaemic and six boxes of the pills restored her to health, strength and color. Naturally I consider Dr. Williams' Pink Pills a blessing to weak, run-down people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

## Appointed Danish Consul

H. P. Madsen Will Represent Danish Government in Northern Alberta  
H. P. Madsen, of the Edmonton City Dairy, has been appointed Danish Consul for Northern Alberta, with headquarters at Edmonton. Increasing Danish settlement, estimated at 8,700 in 1927, is given by the Danish Government as the reason for the establishment of the consulate. The territory will likely extend from Red Deer north.

No Asthma Remedy Like It. Dr. J. B. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

## British Army Men For Canada

Will Arrange To Place Demobilized British Soldiers On Land Here  
Col. J. H. Stilbard, Commandant of the British Army Training Centre at Chislehead (Wiltshire), England, is now in Canada planning to draft out large numbers of demobilized British Army men to Canadian farms if satisfactory arrangements can be made with the Government and other organizations. Up to the present most of these men have gone to Australia, the Colonies, states, where they have done splendidly. The course of farm training is thorough and begins six months prior to actual discharge from the army.

People of 65, according to a British M.P., don't go to work for the love of it. Other people who likewise don't go to work for the love of it are those of 25, 35, 45 and 55.

If ignorance is bliss, why isn't there more happiness in the world?

Made in Canada—No Alum!

MAGIC BAKING POWDER  
CONTAINS NO ALUM

## OUR MERCHANT MARINE

Represents An Important Service To People Of Canada

The annual report of Canada's Government Merchant Marine by no means justifies those critics who hold that the ships are an enormous and useless drain upon the Treasury and that they should be sold. It is true that there was an operating loss in 1927 of \$720,000 as against \$300,000 in 1926, but, on the other hand, the improvement over the 1925 showing was more than \$200,000, and almost \$700,000 over 1924.

The past year was not a good one for shipping, no matter how operated. There was a shortage of cargo tonnage, this producing increased competition which resulted in reduced freight rates. "During the latter months of the year," says the report, "the volume of traffic moving from Canada to the United Kingdom became reduced, with the result that earnings of steamers trading to the United Kingdom were seriously lessened."

With brighter prospects for 1928, the next annual report of the Merchant Marine may well be of a more cheerful character. Nor must it be forgotten that, apart altogether from deficits or surpluses, the Merchant Marine renders an important service to the Canadian people. It undoubtedly provides frame for the Canadian National Railways; it advertises Canada abroad and it is a measure of protection for Canadian exporters from private shipping rings.

It is possible, of course, to pay too highly for such things; but, having regard to all existing conditions, and in view of future prospects, the time would hardly seem to have yet arrived when the Government could sensibly dispose of the ships of the Merchant Marine—especially at existing prices.

## Aeroplane Service For West Expect To Establish Flying Service Between Winnipeg and Pacific Coast

With the ultimate object of establishing an aeroplane service between Winnipeg and Pacific coast cities, the Western Canada Airways Limited has purchased the Pacific Airways Limited, Vancouver. Plans have already been made to extend the activities of the Pacific Company to take in part of Alberta and a larger territory on the seaboard.

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

## Hat Brings High Price

One Of Napoleon's Sold Recently For Fifteen Thousand Dollars  
One of Napoleon's hats, a well-worn specimen, has been sold at auction for \$15,000. The hat will not leave France, since it was announced that the purchaser was a French army officer. The hat, in the shape made famous by Napoleon, was accompanied by a certificate guaranteeing that it had been sold by his valet in 1814 to an old clothes man.

For Rheumatism use Milard's Liniment.

A London vicar has proposed the charging of an extra fee of \$1.25 for weddings where confetti is used, to pay for the extra work of cleaning afterward.

Shanghai's largest hospital uses only a pound of morphin a year.

## Mechanical Man Is

Assistant To Doctor

Administrators Anæsthetic In Exact Amount Required and Mistake Is Impossible

The Toronto Mail and Empire recently published the following special dispatch from Baltimore, Md.: "A Robot, or mechanical intern, believed to be the first of its kind in the world, has been devised by a professor at the University of Maryland for use in the medical and surgical field."

"This machine, called an automatic anaesthetizer, was invented three years ago to be used in connection with experiments being conducted by the Department of Pharmacology. Not only does this new Robot do away with the necessity of having a special doctor, nurse or orderly to administer the anaesthetic during operation, but it also prevents an under or over-dose, and uses the exact amount necessary to keep the patient in total unconsciousness."

"The general principle of the machine is based upon the variation of pressure in the lungs of the patient during respiration. Danger of fatality is held impossible."

## Will Have To Wait

A native of Poland, for some time a resident of Ottawa, Ontario, went into one of the railway ticket offices there recently, and wanted to know if he could get a cut rate on one of the "seaplanes crossing the Atlantic." He was told to come back later.

The salaries and wages in Canada's forest industry total annually about \$100,000,000.

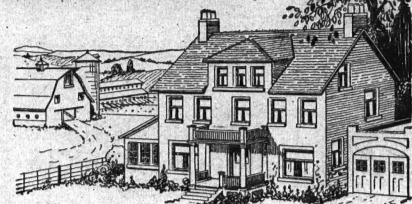

Peevish, pale, restless, and sickly children owe their condition to worms. Mother's Worm Expeller will relieve them and restore health.

## For a City Beautiful

To make Ottawa second in beauty to none of the capitals of the world, is planned in a measure which proposes the expenditure of \$200,000 annually for 30 years, with an immediate outlay of \$30,000. One of the principal features of the improvement scheme is in the formation of a large central park.

Among some Indian tribes of North America it is customary to cut the hair of widows and forbid them to marry until their hair has grown again to its original length.

## Here's How

## You Can Always Keep Your Farm Buildings in Good Repair

### GYPROC Advantages for Farm Buildings

Easy to use. Low cost. Available as lumber. Cannot warp, bulge, crack, shrink or burn. Resists heat and cold. Vermin proof. Eliminates repairs. Protects your stock. Ideal for lining garages, poultry houses, barns, grain bins and other farm buildings. Especially suitable for converting attics and basements into extra rooms.

THOUSANDS of farmers have learned how easy and economical it is to keep farms up-to-date with Gyproc. Whenever repairs or alterations are required—whether new buildings are needed—they rely on this famous fireproof wallboard.

For fast, economical, fireproof construction there is nothing to equal Gyproc. It cannot warp, crack, shrink, bulge or burn. Its million-celled cork insulation protects stock from cold, heat and vermin. Saves time, saves labor, saves fuel—the easiest to erect and most satisfactory Wallboard you can buy.

## DOMINION IS INVITED TO SIGN U.S. PEACE PLAN

Washington, D.C. — Expressing keen satisfaction that the British Dominions had been so favorably inclined towards the treaty for the renunciation of war which the United States Government proposed on April 13, 1928, as to wish to participate therein individually and as original signatories, Secretary of State Frank B. Kellogg has extended to Canada a cordial invitation to become one of the primary parties to the treaty for the renunciation of war which is now under consideration.

Secretary Kellogg's note on this subject was despatched to the Canadian Government through Hon. Wm. Phillips, American minister at Ottawa. An identical note has been sent to the governments of Australia, New Zealand, South Africa, the Irish Free State and the government of India.

The American note refers specifically to the treaty to outlaw war as an instrument of national policy, to which all the great powers have been invited to adhere.

No mention is made to a further proposed treaty to provide machinery for the arbitration of international disputes. This second treaty in the case of the British Empire, would replace the Root-Bryan arbitration treaty, which is about to expire.

## Shows Regard For Dominion

Submission Of U.S. Peace Plan "Pretty Complicated," Says London Paper

London. — "Frank B. Kellogg, Secretary of State for the United States, has paid the British Dominions a pretty compliment in officially communicating to each of them the United States' proposal for a treaty for the renunciation of war before approaching the minor powers in Europe," says the Daily Telegraph. "Of course the position of the Dominions is different from that of the minor European powers. On all big international issues and great international conferences since 1919 the British Empire has been represented by an Empire delegation, including delegations from all the Dominions. "Still, Mr. Kellogg's gesture augurs a regard and friendliness for the Dominions which they and the Empire as a whole cannot fail to appreciate."

## May Not Be Nominated

Reported That Hoover's Chances For Republican Nomination Not So Good

Washington. — It is the well-founded fear in informed and influential Republican circles here that Herbert Hoover, prospective candidate for the Republican presidential nomination, cannot carry the county against Governor Alfred E. Smith, of New York, whose nomination as Democrat candidate seems assured, and this fear may eventually block Hoover's choice as party leader.

Hoover has identified himself with every policy of the Coolidge administration and is the popular Republican candidate. His nomination, however, is far from assured. The formal opposition to his candidacy within the party is fairly strong and well organized.

## Want Censor Committee

Toronto Men Would Have Books and Magazines Checked

Toronto. — At a conference between publishers, literary men and the police department to consider the advisability of appointing a committee to censor books, magazines and other periodicals against which complaints are made to the police it was decided to communicate with the Dominion Government and ask them to select a committee to act for the Dominion. If this cannot be done an effort will be made to appoint a committee here.

Memorial To General Booth London. — The foundation stones of the Salvation Army training college, which is to cost \$1,625,000, have been laid. The building is being erected at Denmark Hill, in the Southwest of London, as a memorial to General William Booth.

Sir Arthur Currie Ill Montreal. — General Sir Arthur Currie is confined to his home here recuperating from a slight illness. It is understood that Sir Arthur will visit Europe after McNeill University closes for the summer holidays.

W. N. U. 1735

## Denies Dealing In Immigration Permits

Former Solicitor-General Denies Charge In Whistle-Blower

Ottawa. — Hon. E. J. McCormack, former Solicitor-General, denied absolutely before the parliamentary immigration inquiry that he had dealt in immigration permits for \$100 apiece as charged by Alderman M. J. Caldwell, of Regina, before the immigration committee.

"I was astounded and stunned to read in the papers the statements of Mr. Caldwell," Mr. McCormack said. "I denied it as vehemently as I had the opportunity of coming before the committee and clearing away the charge. I was glad to read the denial of the minister of Immigration. What he said was true. I have had no dealings with Mr. Forke since he has been in office."

Mr. McCormack explained he had been elected in 1921 from North Winnipeg, which was half foreign born. Many of these people wished to bring relatives to Canada.

"I assisted them, but I never charged them a cent," he said. The numbers had become so great that later on he had charged them telegraph costs and such things. Then he had turned them away.

The records of Mr. McCormack's law firm of 1922 showed that seven applicants had been handled by his firm, "in a strictly legal way."

The legal fees charged varied from \$15 to \$50. After his return to Winnipeg in 1926, four cases had been handled at fees of \$25 each.

## Frown On Sunday Labor

Alberta Will Take Steps To Enforce Lord's Day Act

Edmonton. — Attorney-General Lymburn is instructing the Commissioner of Provincial Police to notify all police detachments in the province that it will be the policy of the department to secure a wider and better observance of the law in respect to Sunday work.

The local police will be expected to co-operate with the citizens in maintaining respect for the provisions of the Lord's Day Act.

Mr. Lymburn points out that under the extreme weather conditions that have prevailed at critical periods of the past two years, considerable leniency in regard to the Sunday law has been exercised, because a certain amount of Sunday work on farms was unavoidable.

He says that this is not, however, to be taken as establishing a precedent, and the law of the land still stands. An effort is now being made to appeal to the interest and good judgment of the general public in the direction of better observance of the day of rest.

## Endorses Peace Treaty

Kellogg Plan Would Make Armies Useless Says Ramsay MacDonald

London. — When the great powers sign the treaty suggested by the proposals of the United States Secretary of State Frank B. Kellogg, the armies and navies of the world will shrivel up, Ramsay MacDonald, former Labour Premier, declared before the American Chamber of Commerce at a luncheon.

"Sign a multi-lateral pact outlawing war," said the leader of the opposition in the House, "and these false securities we have faintly trusted, these defensive armies which have never protected us, will disappear, because they are useless."

Mr. MacDonald described the Kellogg peace note as "this magnificent declaration of simple fact."

With one part only of the British reply Mr. MacDonald found fault — that regarding self-defence.

"When such a treaty is signed," he said, "self-defence becomes unnecessary and any aggressor immediately becomes an outlaw."

Shrine Destroyed By Fire Regina. — Statuary constructed during the time of the French revolution was destroyed in a fire at the Sacred Heart shrine near Lebert, Sask., east of Regina. The shrine was levelled. Origin of the blaze has not been ascertained.

Japs Return Prisoners Tokyo. — Advice from Eui-san, Shanghai, says that after conference with the Nationalist authorities the Japanese agreed to return to the local Chinese police all prisoners and munition taken there in the recent trouble.

Another X-Ray Martyr Rio Janeiro, Brazil. — Another martyr to the X-ray is dead. Dr. Alvaro Alvin began research in 1923 and notwithstanding loss of both hands continued his work until a few days ago.

## Thornton Will Serve On League Committee

President Of C. N. Railways Has Accepted Appointment

Geneva. — Sir Henry Thornton, president of the Canadian National Railways, has accepted an invitation to serve as a member of the League of Nations Railway Committee.

Major-General Raymond D. Candolle, former manager of the Great Southern Railways of Buenos Ayres, also has accepted an invitation to serve.

Montreal. — Sir Henry W. Thornton, K.B.E., chairman and president of the Canadian National Railways has accepted an invitation to become a member of the railway sub-committee of the advisory and technical committee on communications and transit of the League of Nations; it was announced here.

The sanction of the Federal administration to the acceptance of the invitation was given to Sir Henry by the Prime Minister and by the Minister of Railways and Canals.

As Sir Henry may not be able to attend some of the meetings, permission has been given to P. A. Clews, European traffic manager of the Canadian National Railways, located at London, to represent him when occasion requires.

## AWARDS ARE MADE COVERING WAR LOSSES

Ottawa. — Canadians have been awarded \$6,289,389.34 as war reparations against Germany in a report by Commissioner James Priel, K.C.

The total amounts include \$4,246,868.75 assessed in favor of the claimants, and \$2,042,520.59 representing five per cent. interest on all awards calculated to March 10, 1928.

Claims dismissed by Commissioner Priel totalled 150 and involved \$21,556,846.03. Eighty-seven claims, totalling \$4,391,544.40 are dismissed in the report with the notation "no action, claims withdrawn, or not pressed, may be considered dead."

The records the report states, cover loss of life and property on the British ocean liner Lusitania sunk by a German submarine off the coast of Ireland on May 7, 1915; on the Hebridean ship by enemy submarine September 4, 1915, and on other passenger and merchant vessels; merchandise lost on ships torpedoed; claims of fishermen and owners of fishing vessels sunk by submarines or raiders; claims for property destroyed in enemy territory; internment claims; claims of insurance companies for war losses; air raid claims; claims of ship owners and charterers; claims in respect to nurses and soldiers in hospital ships sunk; claims in respect of the Halifax explosion and other miscellaneous claims.

The awards of 1,613 claims dealt with range all the way from \$30 to \$246,000. The largest amounts are awarded under the headings of steamship losses, which include \$26,310 awarded the Canada Steamship Lines; \$346,000 to the Dominion Coal Company; \$300,000 to the Dominion Iron and Steel Company, and \$400,000 to the Nova Scotia Steel and Coal Company.

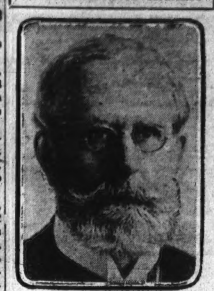

The T. Eaton Company, Limited, is awarded \$138,796.15 for merchandise lost on 19 vessels and goods seized at Antwerp. The total amount of this claim aggregated \$165,231.45.

Sentenced For Mail Theft Toronto. — Charles L. Pettit, local postman, was sentenced to four years in penitentiary for the theft of letters from the mails.

Scots From China J. S. and Mrs. Calder are Scottish but their sons are Chinese if one is to derive nationality from place of birth. The passport problem was a puzzle but was solved in one way or another, for here they are "All aboard the C.P.E.S. 'Mellin'." J. S. Calder, senior, has resided in China for twenty-seven years and his sons spoke their native tongue before they learned English. They go to England to school.

## CHIEF JUSTICE OF ONTARIO

Right Hon. Sir William Mulock, chief justice of Ontario, who was chairman at the Canada oratorical championship held in Toronto, May 16.

## Says St. Lawrence Scheme Unnecessary

Report Given To Senate By Shipping Federation Officials

Ottawa. — "It is our firm conviction that as far as Canada is concerned the project is untimely and unnecessary," said A. L. W. MacCallum, manager of the Shipping Federation of Canada, to the Senate Committee on Waterways with respect to the St. Lawrence project.

Mr. MacCallum assured the committee that the organization which he represented was concerned only with ocean shipping and that it was not wedded to any particular port or ports in Canada. It felt, however, that the immense expenditure on such a scheme as the St. Lawrence waterways would only be justified if it was proven that the benefits would be large.

The Federation had given special consideration to the matter and it has come to the conclusion that the expenditure at present was not warranted.

## Buys Another Airplane

Baron Huenefeld Now Owns Sister Ship To The Bremen

Albany, N.Y. — Baron Gunther von Huenefeld, backer of the first transatlantic westward flight across the North Atlantic, has purchased the Junker's plane Europa, sister ship of the Bremen, but what flight he plans in the new plane, are a matter of conjecture.

One report is that the German Baron, Captain Koehl, and Major Fitzmaurice, would attempt a return flight to Europe, having the new plane shipped to New York from Germany. Baron von Huenefeld, however, denies that such are his plans. He said it was possible that the plane would be shipped to Ireland, and that he and Koehl would fly it there to Germany, but that the plans were indefinite.

## Honors Go To B.C.

Crescent Beach, B.C. — William Brankston, son of Mr. and Mrs. W. Brankston, of Nanaimo, a pupil of St. George's school, Crescent Beach, won a special prize awarded for geometrical drawing by the Royal Drawing Society of London. He took five honors and a pass for first place in the world. It is claimed, leading against 73,000 contestants.

## Cost Of C.N. Equipment

Ottawa. — The Canadian National Railway purchased \$56,024,219 worth of equipment in Canada from 1923 to 1927, inclusive. It was stated in reply to a question in the House.

## Gives Life To Aid Science

Doctor Studying Source Of Jungle Fever Succumbs To Disease

New York. — An expedition into Africa in an attempt to discover the relation between South America and African yellow fever resulted in the death of Dr. Hydero Moguchi, of the Rockefeller Institute for Medical Research, the institute was advised.

Dr. Moguchi, discoverer of the source of South American yellow fever in 1916, died at Accra, West Africa. Recently he wrote to New York friends that he had been stricken with African yellow fever and had been in an African hospital from December 28, 1927, to January 9, this year.

He said his own was the first case of the disease to come under his observation and that from his bed he had directed the inoculation of a monkey with some of his infected blood. The animal died 12 days later and additional experimentation, his letter said, disclosed the micro-organism responsible for the disease.

## Coarse Grain Payment

Saskatchewan Coarse Grain Pool Making Second Interim Payment

Saskatoon, Sask. — A second interim payment amounting to \$730,361 is being mailed to members of the Saskatchewan Coarse Grain Pool. This represents a payment of 8 cents a bushel on all grades of oats except a few very low grades; and 10 cents a bushel on all grades of barley, flax and rye. This brings total payments to growers by the Coarse Grain Pool for the 1927 crop to the level of 53 cents a bushel for 2 c.w. oats, 75 cents for 3 c.w. barley; 1 n.w. flax, \$1.75 per bushel; and 2 c.w. rye, 95 cents per bushel basis Fort William.

## ROYAL SOCIETY HONORS THREE FELLOW MEMBERS

Winnipeg. — Distinguished scientists and scholars honored three fellow members of the Royal Society of Canada, in annual meeting here, when outstanding awards were conferred on Elias Coleman, Canadian poet; Dr. A. P. Coleman, F.R.S., of the University of Toronto, scientist; and Dr. Thomas Channais, of Quebec, historian.

To the distinguished Canadian poet was awarded the Lorne Pierce medal; Dr. Coleman was the recipient of the Flaville medal, and Dr. Chapais received the Tyrrell medal—the highest awards which science and literature can bestow in Canada.

The presentation of awards made by Professor A. H. Reginald Buller, F.R.S.C., of Winnipeg, president of the Society, featured the evening session held at the University of Manitoba.

Many papers on important scientific problems and addresses by outstanding historians were delivered before various sections of the society.

An interesting paper was presented by W. P. Thompson, of the University of Saskatchewan. He displayed slides showing the effects of "crossing" wheats of various strains; how the chromosome numbers of wheat could be calculated in second generation plants, and many important points in the practical breeding of grains.

Wheat, for example, he said, can be crossed with rye, provided wheat is the female parent, but not if it is the male.

A sum of \$35,000 has been placed at the disposal of the Royal Society as the nucleus of an endowment fund, by the Carnegie Corporation of New York. It was announced by Sir Robert Falconer, president of Toronto University.

The amount, he stated, will be retained exclusively for endowment purposes.

In reporting to the convention of the Society, Sir Robert said that the endowment committee had given consideration to the policy of raising a fund that would enable the society to be somewhat independent. The Dominion government, he said, so far had only given \$5,000.

Other assistance, however, was being sought.

Sixteen new fellows were declared elected to fill vacancies in the council. They are: Sir Robert L. Borden, W. H. Boyd, Ottawa; Robt. H. Clark, Prof. J. S. Delury, Prof. D. C. Harvey, of the University of Manitoba; L. L. Stines, Saskatoon; Geo. W. Seath, Montreal; Stanley Smith, Alberta; Roland Rea, Father Hugolin, Oskar Kliet, B. R. Mackay, Right Rev. F. X. Ross, James Malcolm Swales, W. Stewart Wallace and W. T. Waugh.

## DIRIGIBLE ITALIA MAKES FLIGHT OVER NORTH POLE

Kling's Bay, Spitzbergen. Coated with much ice and fighting a strong southwest wind, the dirigible Italia was slowly making her way back to her base at Kling's Bay after a brilliant flight to the North Pole.

Gen. Umberto Nobile, successful in his second dirigible flight to the top of the world, sent three historic messages from the Pole, one to Pope Pius, telling the pontiff that he had dropped the oaken cross entrusted to him on the North Pole from the Italia, and the others to King Victor Emmanuel and Premier Mussolini.

While over the Pole the flags of Italy and Milan and various other souvenirs were dropped.

The cross, which was about eight feet high with a metal base, had a repository in which was placed a message written in Latin by Pope Pius.

For two hours the dirigible cruised over the pole, reaching that spot at twenty minutes after midnight, nineteen hours and forty minutes after leaving Kling's Bay.

At 2.30 a.m. the return flight was begun, the dirigible following the 24th meridian to the half way point about 350 miles from the pole and then turning for King's Bay.

General Nobile had planned to land several men at the pole to make observations, but the messages received at Kling's Bay indicated that this part of the plan had not been carried out.

## Takes Responsible Position

Lindbergh Given Full Charge Of Big Air Scheme

New York. — Col. Charles Lindbergh, who has been out of a regular job since he quit the air mail service more than a year ago to fly from New York to Paris, has gone to work for the Trans-Continental Air Transport. Lindbergh's new position is a "full time job," his employers said. As chairman of the corporation's technical committee, the famous ocean flyer will have charge of selecting airplanes, motors, safety devices, routes, and flying schedules for the new coast to coast air mail service.

It is up to Lindbergh to say how soon the new 14-hour passenger service between New York and San Francisco can begin. The colonel already has given some time and considerable thought to the problems of his new job and it is believed the service may be inaugurated within six or seven months.

Four other aviators will serve as Lindbergh's fellow committee men. C. M. Keys, president of the transport corporation, who announced the signing of Lindbergh, said the committee would be men "of long experience and proved ability."

## Alberta Forest Fires

Fire Raging On Both Sides Of The Athabasca River

Calgary. — Fire is raging on both sides of the Athabasca River where it joins the St. Mary. A divisional point of the Edmonton, Devonian and B.C. railway, a telegram informed the Calgary office of the Dominion Forestry Branch.

J. R. Hall, supervisor of the Lesser Slave National Forest, is in charge of fighting the fire. It is not in the National forest but in the near vicinity.

T. F. Elfeen, district supervisor of fire protection, said that the fire has spread in the whole northern portion of the province was dangerously close owing to last year's growth of rank grass and absence of rain to any extent so far this season. No damage has been reported.

"If present weather continued it will be very difficult to keep the fire under control," Mr. Elfeen said.

## Send Ship For Bremen

St. John's, Nfld. — The steamer Sagona, which left Humbermouth, Que., will endeavor to reach the scene of the Bremen, stranded on the Quebec-Labrador coast, and if the famous monoplane can be salvaged the Sagona will bring it back to Humbermouth. The Bremen was seriously damaged when it attempted to take off from Labrador, recently.

## Many Dead In Mine Disaster

Mather, Pa. — The ill-fated Mather mine scene of a disastrous explosion, continues to give up its dead. The known death toll reached 82, and mine experts said that all other missing men numbering 115 would be added to the list of dead.

## GIVE OTHER ROAD- USERS A SHOW

It has often been observed that the best test of a man's real character is to give him a little authority; the snob and the bully is at once revealed as well as the genuine ruler of men. The same thing applies in the motor world; there is nothing that better reveals disposition than the handling of an automobile. A person who has passed heretofore for a gentleman becomes possessed of a many horse-powered, express-speeded machine, and at once begins to demonstrate the flaw in his character by forcing smaller machines into the ditch, or, what is more cowardly still, by according no consideration to the horse-drawn vehicle or to the boy or girl on a bicycle. Where the evidence is clear, this kind of individual should be punished with the full power of the law, aided by the efforts of the various automobile associations; he is a source of undeserved reproach to the decent motorist and a standing menace to the safety of the community.—Edmonton Journal.

## REFORM IN COAL MINING STARTED BY ROCKEFELLER

A plan of reform in the soft coal industry which operators expect will stabilize employment, end overproduction and stop price cutting, will be put into effect by the Consolidated Coal Company, of which John D. Rockefeller, Jr., is a large shareholder, according to an announcement of policy just made by George J. Anderson, president of the Consolidated company.

Coal operators described the move as a "pioneer step," and are in accord with Mr. Anderson that it will have the desired effect, many other operators signifying their intention of taking similar action. It was said that John L. Lewis, president of the United Mine Workers of America, advocated such a step two years ago.

In brief, the plan consists of eliminating inefficient men and mines from the industry and concentrating on the best production. To this end the Consolidated company has announced that it is closing ten mines—four in Somerset field in Pennsylvania and six in the Fairmount field in West Virginia. About 2500, or 20 per cent of the miners in these two fields will be thrown out of work, but for the remaining 80 per cent far better conditions will exist, giving them full time instead of part time on which they were scheduled before, it was said.—Ex.

## ANOTHER ARGUMENT IN FAVOR OF GOOD ROADS

A couple presented themselves before a justice of the peace and requested that the marriage ceremony be performed. The judge asked the usual questions as to names, place of residence, age, etc., when he noticed behind the lady a little child of two years. "How about this little miss?" he asked.

"I'll tell you how that is, judge," said the man. "You see, we were going to get married three years ago, but the roads were so darned bad we couldn't get to town."

A few days ago, we overheard a conversation between a school professor and the son of a local painter. After discussing for a considerable time on the subject of theology, the young lad asked: "And how do you mix it?"

## ALBERTA SCHOOL WEEK

An "Alberta School Week" is planned to arouse the public to greater appreciation of the work and organization of schools and to stimulate a spirit of co-operation by public, parents and school workers in the matter of education, according to a recent decision of the educational committee of the Alberta Teachers' Alliance at a recent meeting.

All publicity is to be of a non-controversial character and it is planned to enlist the co-operation of the press throughout the province, in the form of intensified news day-by-day throughout the week, dealing with local or general educational topics and special articles by educationalists and local teachers. Special sermons on education will feature the Sunday services in the churches on the opening day of the week; there will be a rally of parent-teacher associations or federations as well as special addresses by teacher speakers at service clubs and similar organizations. It is expected that all parties and organizations interested in education, including the department of education and the Alberta Teachers' Association and local school boards may be enlisted in the endeavor, and in the schools themselves, special programs, comments by teachers and exercises by pupils and addresses by prominent citizens on the value of education will be featured.

The date tentatively planned by the committee is October 1st to 7th.

The educational committee is representative of every section of the province and it includes every member of the provincial executive of the A.A.A. and the following in addition: W. L. Irvine, Oyen; F. Speakman, Calgary; H. C. Newland and Miss Mary Crawford, Edmonton; P. L. F. Piches, Medicine Hat; R. E. Ricken, Carleton Place; J. Welsh, Red Deer; A. J. H. Powell, Fort Saskatchewan; Mrs. J. Jakov, Drumheller; H. C. Beacem, High River; R. E. Stewart, Olds. C. G. Elliott, Edmonton, was elected chairman.

## FOUGHT OVER 600 FIGHTS

Who among the great array of fighters from time immemorial has fought the most battles, win, lose or draw?

It is generally known that Abe the Newsboy claimed to have engaged in more than 1000 combats, says the Star Fight Story, but Abe wrestled as much as he fought, and there are no conclusive records at hand to prove his contention.

Kid Beebe, who fought for many years, and met some of the best featherweights in the game, seems to have been among the world's busiest fighters.

Here is a list of stars who engaged in more than 200 fights each: Kid Beebe 612, Johnny Dundee 327, Jack Britton 293, Ted Kid Lewis 256, Young Ernie 252, Harry Greb 258, Sam Langford 243, Young Stribling 212, George Chancy 201, Benny Leonard 200.

## LET'S CO-OPERATE

Two fool jackasses—say, get this done—were tied together with a piece of rope. Said one to the other, "You come my way, while I take a nibble from this new mown hay." "I won't," said the other, "You come with me for I, too, have some hay, you see." So they got nowhere, just puffed up dirt, and Oh, by Golly that rope did hurt. Then they faced about, these stubborn mules, and said, "We're acting like human fools. Let's pull together, I'll go your way, then come with me and we'll both eat hay." Well, they ate their hay and liked it too, and swore to be comrades good and true. As the sun went down they were heard to bray: "Ah! this is the end of a perfect day."—Fraser Valley Record.

On Friday last a little girl noticed J. P. Mahoney emerging backwards from the new Red Trail bus, and looking up at her mother, shouted: "Oh nanmy, here's a circus!"

## This Great Healing Oil Must Banish Eczema and Skin Troubles

Make up your mind today that you are going to give your skin a real chance to get well. You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to any good drug store today and get an original bottle of Moon's

Emerald Oil. The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past. Remember that Moon's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.

## COWLEY HAPPENINGS

Mrs. Lionel Peel, of Blairmore, is spending a few days visiting her parents in Cowley.

Mrs. M. A. Murphy and Mrs. Eastbrook are attending the annual convention of the Alberta Women's Institutes in Calgary.

R. B. Harrison, formerly a resident here, but who has resided in Vancouver for the past few years, stepped off to renew acquaintances for a few days on his way to Calgary.

A very successful dance was put on here under the auspices of the Canadian Legion on the night of May 24th, when a large crowd attended. Spendid music was supplied by the Knights of Rhythm, of Blairmore. A tidy sum was realized.

The sports committee are now having the race track put in fine shape. Other necessary work is also being done to make Cowley's annual sports day, which had been postponed from May 24th to June 13th, a big success. Come and bring your family. There will be room for everybody.

A children's clinic was given by the Ladies' Aid on the afternoon of May 24th at the home of Mrs. Porter, where a large number of the children, together with their parents, gathered to take part in the contests in races, games, etc. Ice cream and other goodies made the youngsters very happy.

Word has been received that Mr. Diamond, who has been a prosperous farmer here for many years, died at his old home in Quebec on Sunday last, where he went last fall to recuperate in health. His wife was with him during his illness. He leaves a large family to mourn.

The surrounding neighborhood was saddened when word was received on May 24th, saying that little Mack Tustian, 11 years of age, was drowned in the river at Hosmer, where his parents now reside. The accident occurred while several children were playing by the river side in an old car, which had been left very near the water's edge for a considerable time. The deceased climbed into the car, which rolled into the angry waters and no one capable was near to prevent the accident. In another few minutes the whole party of children would have met similar fate, as they were all making an effort to get into the car. Mr. and Mrs. Less Tustian, parents of the lost child, were residents of Cowley for several years, most of their family of five children being born here. At present writing the body has not been found. Many friends extend deepest sympathy to the bereaved parents.

## BAD BOOKS ARE POISONOUS

There are poisonous herbs and there are poisonous books. To kill our ideals and to wipe out our faith in humanity is worse than to war against the life of the body. And the poison may linger long in the system even after we have sought the antidote.—The Canadian, Belleville, Ontario.

First Farmer: "I've got a freak on my farm—a two-legged calf."

Second Farmer: "I know. He called on my daughter last night."

Teacher: "Tell me what it is that elephants have and no other animal has."

Johnnie: "Little elephants."

An army chaplain, meeting a Scotchman who had taken a "drop too much," offered to guide him to the barracks.

On the way Jock became discursive. "Ye ken, chaplain," he remarked, "my father is a very religious mon, and I'm that way inclined myself. Noo, I'd like to be a bit of an argument with ye on predestination."

The chaplain was much amused. "Haden't you better wait until you are sober, Jock?" he replied.

"Hoot, mon," said the Scotchman, "I dinna care a bit about predestination when I'm sober."

Another barometer of the state of Western Canada's agricultural progress is the sale of school lands in the Prairie Provinces which in 1927 was the best on record. In all 480,409 acres were disposed of for a total of \$2,983,297, representing an average of \$18.70 per acre. The lowest price obtained was \$7 per acre and the highest \$79.

Appointment was announced recently of R. F. Angus to be assistant superintendent of the C.P.R. Montreal Terminals. Mr. Angus, who joined the Canadian Pacific Railway as a clerk in 1913, is the grandson of R. B. Angus, one of the creators of the system, and nephew of Sir Vincent Massey, chairman of the Bank of Montreal.

Ten-year-old John Wylie Barbour travelled recently alone from his aunt in Los Angeles to his father in Glasgow, a distance of about seven thousand miles, in care of C.P.R. train and boat officials from Chicago on. John thought the climate here was little different to California and wore no overcoat or hat left it packed in his trunk, but he changed his mind at Montreal where he struck sub-zero weather. He arrived safe and sound, and will come back in the spring.

A paradise for the outside camper will be ready next summer when the government finishes the new camp ground in the Rocky Mountains Park within half a mile of Banff on Tunnel Mountain. The camp, which on its old site last July accommodated 11,553 persons, is especially popular among prairie farmers between seeding time and harvest. Charges are only a dollar for a party for three weeks, and running water, garbage removal, dinner shelters, electric light and even pay telephones are provided for campers.

NOT only is the "Bigger and Better" Chevrolet a finer car mechanically . . . not only does it offer more thrilling performance and more delightful riding comfort—but it is infinitely more beautiful and more superbly styled!

Every one of the seven new models is worthy of detailed comparison with cars costing hundreds of dollars more—not only in brilliance of design and execution, but in completeness and richness of appointments as well.

The new Fisher bodies are artistically beaded and paneled—with long, racy lines. The new genuine Duco colors are modish and smart.

Interiors, too, are impressively luxurious—rich upholstery, wide, restful seats and a beautiful, new, completely enclosed instrument panel.

Come in and see for yourself the beauty you've always wanted! We'll gladly place a car at your disposal—for an actual road demonstration.

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time. C-19-B-18C

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

The favorite soprano, after apologizing for her cold, sang:  
"I'll hang my harp on a weeping willow tree—e-ee, ahem. On a weeping willow tree—e-ee, oh!"

Her voice cracked on the high note. She tried again. Then came a voice from the back of the hall:

"Try hanging it on a lower branch, miss!"

Mistaken

A pompous man missed his silk handkerchief and accused an Irishman of stealing it. After some confusion the man found the handkerchief in his pocket and apologized for having accused the Irishman.

"Never mind at all," said the latter. "Ya thought I was a thief, and I thought ye was a gentleman, and we were both mistaken."

up or down or on the level

# it's always smooth travelling with White Rose Gasoline

Costs less per mile

Ignites instantly, giving a smooth, turbine-like flow of power. For low and high compression motors.

CANADIAN OIL COMPANIES, LIMITED.

His Own Grandpa:

Can a man be his own grandfather? A reader claims that through an amazing series of complicated relationships he is entitled to call himself his own granddad. He writes:

I married a widow with a grown-up daughter. My father, a widower, married my stepdaughter, thus becoming my son-in-law, and his wife, formerly my stepdaughter, became my stepmother also. My wife had a son, who was my father's brother-in-law, my uncles and my stepdaughter's brother. Then my father's wife had a son, who was my brother and also my grandchild, because he was the son of my stepdaughter. My wife also became my grandmother, for she was the mother of my stepmother; and as the husband of anyone's grandmother is called a granddad, I must be my own grandfather!

Of Course

A rather deaf woman found herself sitting beside a well known surgeon at a social dinner. He was not a talkative man, and try as she might, the old lady could not think of any conversation.

At last she had an idea.  
"Should I call you Dr. Dodds, or Mr. Dodds?" she asked, with a charming smile.

"Call me anything you like," replied the doctor, and added genially, "Some of my friends call me an old fool!"

"Ah," she rejoined, not hearing correctly, but anxious to be pleasant, "those are the people who know you intimately, of course!"

She Must Have Been

Bobby's father raises purebred cattle. One day a woman from the city came to visit his mother. Bobby watched her closely. When his mother went to the kitchen for refreshments, Bobby followed her.

"Mother," he exclaimed, excitedly, "is Mrs. Barn a full-blood?"

"What makes you ask such a question?" his mother demanded.

"Well, you look when you go back out there and you will see that she has tags in her ears."

# STUDEBAKER'S \$995 ERSKINE SIX

## Sets Ten New Records by Traveling

# 1000 miles in 984 minutes

ON April 26, two strictly stock Erskine Club Sedans—exactly like those you can purchase from any Studebaker dealer—each traveled 1000 miles in less than 1000 consecutive minutes.

The run took place at Atlantic City Speedway, and was supervised by officials of the American Automobile Association who verified the stock design of the cars.

As a result, ten new records for stock cars in its price class were established by the Erskine Six. And Studebaker has demonstrated that its 75-year-old traditions for careful building are carried through in the design, materials and workmanship of this low-priced fine car—named for Albert Russel Erskine, Studebaker's president.

Although sold at the lowest price at which any Studebaker-built car was ever offered (\$995 f. o. b. Walkerville), Studebaker has not permitted any compromise in the materials or workmanship entering into the Erskine Six. That is why this car was able to travel 1000 miles at better than a mile a minute—why you can drive your Erskine Six 40 miles an hour even when NEW—why the Erskine is so economical to maintain and to operate.

A few minutes behind the wheel of the New Erskine Six will introduce you to a type of performance as sensational for its price class as that of the World's Champion Commander is to the field of higher priced cars.

214. One Piece of Colored Embroidery Work on White Linen. First prize donated by the B.E.S.L., \$2.00.
215. One Piece of Fancy Knitting.

## British Columbia's Mineral Wealth Revives

1. The colossal smelter at Trail, B.C., the home of the Consolidated Mining and Smelting Company.  
2. Mining close in Vancouver. Note the women prospectors.  
3. A typical mining scene at the 400 foot level.

The old mining days of British Columbia, that were as rich in romance as in minerals, are being revived. There is a new record in mineral production in this most highly mineralized area on the North American continent. A most significant feature of the present activity in mining is the way in which many partially developed properties and also prospects which have been lying dormant are now being developed. Substantial progress has been made in building main trunk motor roads through the provinces, while material aids are being given in the working of mineral properties by assisting in the construction of branch roads to them. New trails are also continually being built to open up newly discovered mineralized areas for the prospector. The British Columbia Chamber of Mines has been promoting the welfare of the mining industry for the last thirteen years. The Chamber has on exhibition an interesting collection of the great variety of minerals mined in the province. There is also co-operation with the various prospectors' associations of British Columbia.

Many towns of the province have branch chambers of mines and the classes in mineralogy and geology as well as the mining lectures have been largely attended. It is of interest to learn that there are a few women prospectors attending these lectures as will be seen from the picture. Research work too, with regard to mineral deposits is carried on continuously by the development branch of the Canadian Pacific Railway.

# BELGIAN MILLIONAIRE TEACHES NEW YORKERS HOW TO SPEND

New Yorkers, who are supposed to know all there is to know about the subject, are being given some further lessons in the art of living expensively by Alfred Lowenstein, Belgian, who is rated as one of the ten richest men in the world.

The visitor has dispelled the gloom among the help around at least one hotel, and certain night clubs, restaurants, theatre ticket agencies, florist shops, auto rental agencies, and tógery shops. His hotel bill alone has been averaging over \$1000 a day while he has been making New York his headquarters.

Various other cities are to feel his Midas touch, for he is preparing to take a month's tour of the continent in an airplane, for which he paid \$60,000. He is used to touring by plane. He maintains a fleet of eight in Europe, each equipped luxuriously. His personal aviator accompanied him to this country, along with four secretaries, two typists, a chauffeur, a detective and his family.

The Lowenstein's domicile in New York is the most expensive hotel suite in the city, the royal suite of the Hotel Ambassador, on which the tariff is \$400 a day.

The financier also has to provide food and rooms for his entourage. This is a matter of \$300 or \$400 a day.

He likes to have a lot of flowers about him, and the daily florist bill is around \$100.

He goes to the theatre in the evening, or sends his entourage, and since nothing but the best seats will suffice, the ticket agency gets around \$150.

He goes about in a hired limousine and has other motors at the disposal of his parties, so that is another \$100 a day or so.

He has business that necessitates telephone calls to the Continent, and many telegrams, so that's another big daily crimp in the bankroll.

There are hired valets, maids, barbers and hair dressers to be paid, and bell boys, waiters and doormen to be tipped.

Night clubs are expensive, too, as is well known. The financier smokes only the most expensive cigars, and has quite large tailor and laundry bills, too. A pet dog wears a \$200 collar.

When all these things are taken into account, it is no wonder that he is New York's big spender now.

Though he has been called Europe's "mystery man" and the Continent's most potent industrial magnate, Lowenstein is considerably less mysterious and wealthy than Sir Basil Zaharoff, and less potent in international commerce than Sir Henri Deterding, the master of Royal Dutch Shell Oil interests, who is now locked in combat with Standard Oil. Interest chiefly attaches to him because he is the man who offered to lend the Belgian government \$500,000,000 without interest if given certain utilities concessions and because he is chairman of the International Holding and Investment Co. The latter concern controls electrical developments in certain countries and now is interested in Canadian public utilities.

Blairmore's clean-up day is set for Monday, June 11th.

# GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

## APPLICATION FOR BEER LICENSE

PUBLIC NOTICE is hereby given that the undersigned intends applying to the Alberta Liquor Control Board for a license to sell Beer by the glass, or open bottle, for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta, and regulations made thereunder, with respect to the following premises:

The Cosmopolitan Hotel, brick building, situated on Lots 1 and 2, Block 4, Plan 3311-9, corner of Sixth Avenue and Victoria Street, in the Town of Blairmore, Alberta. The ground leasehold to be on the ground floor on east side of hotel, having entrance from the hotel rotunda and from Victoria Street front.

License at present held by John F. Mahoney.  
DATED at Blairmore, Alberta, this 14th day of May, 1929.  
JAMES F. SMITH,  
May 17-18] Applicant.

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, Pastor.

Serve the church that the church may serve you.

Services for Sunday, June 3rd, the pastor in charge—

SENIOR SCHOOL, 11 a.m. as usual. A hearty invitation is extended to all young people 12 years of age and over.

JUNIOR SCHOOL, 2 p.m., for children up to the age of 12 years.

EVENING WORSHIP at 7:30. The pastor will have returned from the Conference at Edmonton and will have charge of the evening service. Come to church Sunday evening and worship with us.

The next regular meeting of the Ladies' Aid is to take place next Wednesday at 3 p.m. This meeting is to be in the form of a cup and saucer shower, to replenish the Aid's most depleted china, and all those interested will be heartily welcomed. There will be a short programme during the afternoon.

## THE LAW IS AN ASS

In the opinion of local sportsmen, certain features of the fisheries protection laws present flagrant inconsistencies, notably the laws which provide a closed season for pike on trout stocked streams. This sentiment culminated recently when two local boys, Telfer and Chalmers, succeeded in taking a 12-pound pike from the trout-stocked waters of the Highwood and found themselves promptly summoned to appear in the police court for catching pike in closed season. When the two boys finally succeeded in landing the big fellow after being almost dragged into the river, they were immediately proud of their capture. Being quite ignorant of the April to May 15 closed season on pike, they flaunted their catch round the town and after one crowded hour of triumph they returned to their homes to be confronted by a summons to appear before the magistrate. They were fined one dollar and costs. No criticism is attached to the warden or the magistrate as they were merely fulfilling their duty. The storm of protest is levelled at the stupidity of a law which provides at considerable expense for the stocking of streams with trout and then nullifies the result by furnishing a closed season in the same stream for pike, which are known to be a deadly menace to trout.

Mr. Ballachey, as president of the association, has written Mr. Rodd, of the fisheries department, placing the situation before him protesting the inefficiency of the present law. In the meantime the local organization is refunding to the boys the seven dollars which their fish cost them and in spite of the humiliating end to their achievement they are still objects of admiration. No one has tried for the other whoppers still carrying on in the Highwood.

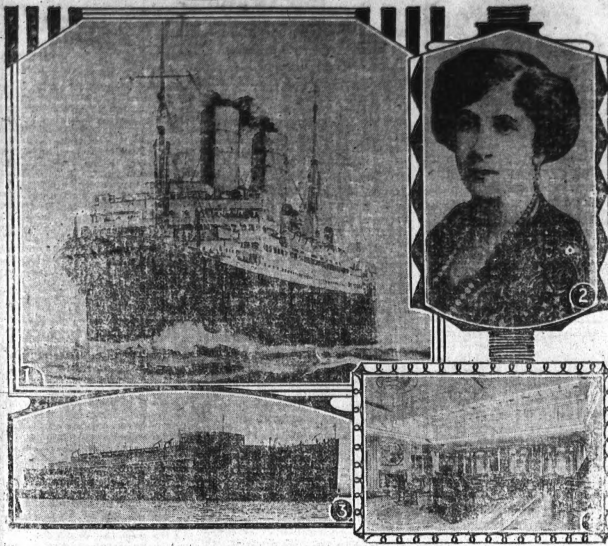

Two amusing incidents at the trial of the two young fishermen was the interest evinced by the warden in the huge fish and who insisted on having a snap shot taken of himself and the pike, and his satisfaction that such a destructive pike had been removed from the scene of action. The Police Magistrate, also, after imposing the fine, graciously permitted the boys to retain the fish, with the suggestion that he would gladly accept a slice for his next meal.—High River Times.

"Dad, did you go to Sunday school when you were a boy?"

"Yes, my son, I always went to Sunday school."

"Well, Dad, I think I'll quit going; it isn't doing me any good either."

## Four New Liners for Canadian Pacific

1. Painting of new "Duchess of Atholl" by Norman Wilkinson. 2. Her Grace The Duchess of Atholl. 3. Vessel just after being launched on the Clyde. 4. Cabin lounge of the palatial "Duchess of Atholl."

Featuring the 1928 St. Lawrence sailing schedule of the Canadian Pacific Steamships is the incorporation of two of the four new 26,000-ton "Duchess" class liners now under construction for the Company in the Old Country. The development of the St. Lawrence route to England and the Continent has prompted the Canadian Pacific to augment their present trans-Atlantic passenger fleet to this extent.

The first of these four huge liners, the "Duchess of Atholl" was launched recently on the Clyde, Scotland, and christened by Her Grace the Duchess of Atholl M.P. The ceremony was attended by a large gathering of Canadian Pacific and ship-building officials.

Her Grace in receiving a silver model of a steering wheel and bookcase as a souvenir of the occasion stated that she knew something of the joy with which the huge order from the Canadian Pacific had been

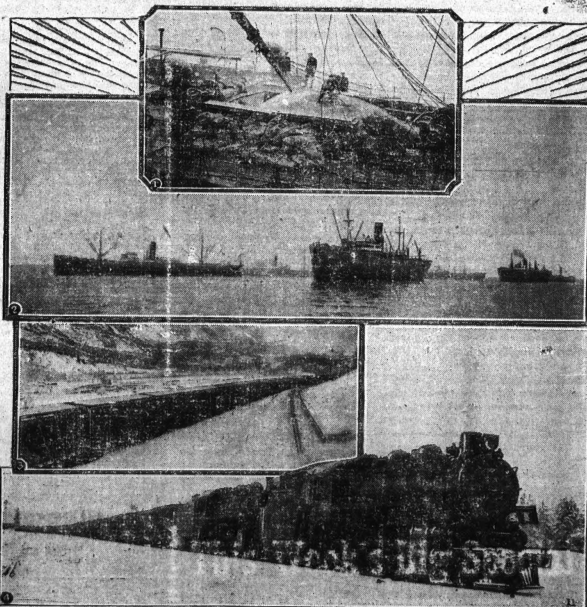

received on the Clyde. The Canadian Pacific she said had entered the Atlantic service only in 1923 and had already spent \$100,000,000 in British shipbuilding yards. No person, she added, could visit Canada and not be impressed with the tremendous activities of the Canadian Pacific and what that Company has meant in building up the Dominion.

With the launching of this vessel, ships registering a total of 72,000 tons have been launched for the Canadian Pacific during the months of October and November. This is regarded as a record for a private company. The four new liners will be each of 26,000 tons gross register. In addition to this passenger liner the total tonnage for the two months is made up by five express cargo steamers of the "Beaver" class, and the "Princess Elaine" new 2,000-ton coastal steamer for the Pacific Coast service of the Company.

The vessels of the "Duchess" class, which will include the Duchesses of Atholl, Bedford, Richmond and Beaufort, will represent four of the finest passenger ships afloat. They will be the largest to navigate the St. Lawrence as far as Montreal on regular runs, the general measurements being length 595 feet breadth, 75 feet with a load draft of 27 feet. The "Duchess of Atholl", as well as her sister ships will be luxuriously appointed throughout. Oak, walnut, mahogany, white and red birch teak, sycamore and Macassar ebony are some of the fine woods being used in the interior finishings. The ships will be cabin class liners and will have accommodation for about 1600 passengers each.

The "Duchess of Bedford", sister ship of the "Duchess of Atholl" is scheduled to be launched in January and the remaining two in the spring of 1929. The new vessels will have a speed of 17½ to 19½ knots at sea.

## 65,000,000 Bushels of Grain Move West

1. A Canadian Pacific freight boat being loaded with grain. 2. Bound for far countries carrying some of Canada's golden crop. 3. Part of a grain train passing through the mountainous regions of the west. 4. A huge double-decker.

Over 65,000,000 bushels of grain will be carried into the port of Vancouver for the twelve months ending March 31 next according to estimated figures issued from the offices of E. D. Cottrell, Winnipeg, Man., superintendent of transportation for the western lines of the Canadian Pacific Railway.

These figures will establish a record. In fact they show enormous strides since 1922—the first year that the Canadian Pacific Railway handled any quantity of grain to the western coast.

Very few people know that the very extensive and expensive facilities provided by the Canadian Pacific Railway to handle the annual grain crop on western lines remain idle, comparatively speaking, for about two thirds of the year, and the money invested in these facilities and extra rolling stock earn no returns during the period mentioned.

The building of the Transcona yards at Winnipeg, with over 100 miles of track and a capacity of 12,000 cars, one of the most up to date yards on the continent, was necessary to handle the Canadian Pacific's grain traffic, and is therefore used for handling revenue traffic only about two thirds of the year.

During the time the cars and locomotives are lying idle they are inspected thoroughly by the mechanical department and put into first class shape, so that when the rush commences they are ready for immediate use. This year seventy of the company's largest engines were transferred west for the grain haulage.

## In difficult feeding cases

—when no food seems to agree with Baby—use Eagle Brand. It nearly always solves the problem.

## Free Baby Welfare Books

on the care and feeding of infants. Write The Borden Co., Limited, Montreal.

## WORLD HAPPENINGS BRIEFLY TOLD

J. Ramsay MacDonald, Labor leader and former premier, will start on a holiday trip to Canada at the end of July. He will be accompanied by his three daughters.

Just to prove it can be done, two waiters are hiking from Berlin to Geneva, 1,000 miles, wearing boiled shirts, swallowtails and patent leathers.

Field Marshal Moritz Auenberg von Kottow, one of Austria's most able generals during the Great War, is dead of heart disease. He was 76 years old.

Reports of a kind which usually turn out to be well founded are circulating in Paris that the Nobel peace prize will be awarded to Secretary F. B. Kellogg, this year, for his work in forwarding world peace.

The government intends to put in to force the long term farm loan act as provided by chapter 98 of revised statutes of Canada, Hon. Ernest Lapointe, minister of justice, stated in the House of Commons.

Argument by Dominion and the provinces on the questions respecting power and property rights on waterways before the Supreme Court of Canada has been deferred until September by a decision made by Chief Justice Anglin.

During the first three months of this year, the value of the mineral output of Ontario had exceeded the corresponding months of last year by a million and a quarter dollars, according to Hon. Charles McCrear, Provincial Minister of Mines.

British movies produced under the act which compels British exhibitors to show a certain percentage of British films will probably be shown throughout Canada. Twelve British films have been purchased for \$100,000 cash on account of bookings by the United Motion Picture Products of America.

## Hall Caine Is 75

Famous British Novelist Celebrates Birthday On Isle Of Man

Sir Hall Caine, novelist and dramatist, Grebe Castle, Isle of Man, celebrated his 75th birthday recently.

Knighthood was conferred on Hall Caine in recognition of his services as a writer of propaganda during the war.

It is understood that Sir Hall Caine is now engaged in writing his version of the life of Christ.

Shut your eyes to your virtues and open them to your faults; so will you have more virtues for other folks to see. Shut your eyes to other people's faults and open them to their virtues; so will you realize how good most people are.

## HEART WAS SO WEAK Had to Stay in Bed

Mrs. F. Wilson, Leithbridge, Alta., writes:—"My heart was very weak and I had to stay in bed for five weeks."

"My aunt advised me to take

as she had taken them with good results after a very bad operation.

"I took them and some time after a doctor came to examine me for life insurance and he said there was nothing wrong with my heart."

Milburn's Heart and Nerve Pills are 50c a box at all druggists and dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1733

## Is Champion Boy Orator

William Fox, Jr., Of London, Ont., Wins Oratorical Championship

Champion orator of Canada—William Fox, junior, of De La Salle school, London, Ontario.

Second in oratorical honor—Miss Swanhild Mathison, Vancouver.

Third—Miss Alice Elizabeth Muse, Roblin, Manitoba.

The winner was presented by J. R. Burnett, of Charlottetown, with a ticket for a free trip to Europe as the guest of the newspapers and committees in the various provinces.

Second in oratorical honor—Miss Swanhild Mathison, Vancouver.

Third—Miss Alice Elizabeth Muse, Roblin, Manitoba.

The winner was presented by J. R. Burnett, of Charlottetown, with a ticket for a free trip to Europe as the guest of the newspapers and committees in the various provinces.

## Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

Continued.

Our first engagement on the following day was to visit Loughborough cathedral, one of the most beautiful examples of modern architecture in Great Britain and the largest ecclesiastical building in the country. It is 584 feet long and will take in all 75 years to complete. It has an interior of building twenty years. This wonderful cathedral is exceeded in size only by St. Peter's, Rome, Seattle Cathedral, and St. John's Cathedral, New York.

The style is Gothic and the building material red sandstone. The roof is of solid copper. It is the first cathedral to be consecrated in the northern counties for 600 years.

The members of the tour to the men of the diocese killed in the War, is perhaps the most impressive part of the beautiful building. Here a large room in a receptacle lined with pure cloth of gold, a book containing the names of 40,000 men who gave their lives for their country in the Great War. The volume itself has taken eight years to complete and has cost \$30,000.

The chapel is ringed with the great cut in stone of the various regiments. At one end is a "Window of Sacrifice" in which are depicted some of the greatest acts of sacrifice in history. Flanking the Holy Table, which is beautifully wrought in solid oak, are two life-size bronze figures of a soldier and a sailor.

The cutting of the nave is the loftiest in the land, rising 116 feet above the floor and the stained glass window at one end of the nave is the largest in the country. The organ has 105 stops and 10,000 pipes and is electrically equipped. It cost \$50,000.

We had fallen so much under the spell of the beautiful cathedral that we had to hurry to the Liverpool Exchange, operated by the Liverpool Provisional Committee, which is organized for trading in pork products (bacons, hams, sides, lard, etc.), and, therefore, directly interested in Canadian trade.

The Liverpool Exchange is the largest in the world, and its trading is practically all done privately and a large amount by telephone. Considerable interest was shown in our visit by the members who gave us a cordial welcome.

A tour of the Liverpool Fruit Exchange and Auction was illuminating. Each big brokerage firm has its own auctioneer. Dealers view the fruit before it is put up for auction. During the actual selling may be furnished with samples as they require them.

Our facilities in Liverpool are in the centre of the pit brings up samples from the basement of each lot offered for sale. These may be seen, or spread out in large shallow baskets in order that all dealers may get a fair idea of the whole.

The auctioneer works at high pressure. Much trading is done by signal. The auctioneer has a list of names, and he occasionally does the dealers express their disapproval by stamping. The auctioneer knows the name of every man in the pit. It is said that one man has sold as many as 10,000 boxes of apples in 20 minutes and on one occasion a whole shipload was disposed of in a similar space of time.

Before leaving Liverpool, we had opportunity to discuss with representatives of the provision trade some of the problems in marketing Canadian produce in Great Britain, and gained valuable information as to the requirements of the British market in bacon, cheese, butter and eggs.

We were now due for Manchester in the magnificent motor coaches of the Globe Travel Company calling en route at the United Hall. Flagger the famous hog breeding centre owned by Lord Daresbury, whose herd of large Whites or Yorkshires has won awards at all the important shows in Great Britain.

Several prize boars were brought out for our inspection and the best of the spotlessly clean farrowing pens and some of the early season litters. Individuals of this herd are shipped to breeders in South America, Italy, France, Hungary, Poland, Holland and Switzerland.

Manchester, Lancashire's great industrial city, although 35 miles from the sea, is the fourth port of Great Britain. This has been made possible through the construction of the Manchester Ship Canal, by which ocean-going steamers approach the very doors of the city.

Within a radius of 30 miles of Manchester there are as many people as there are in the whole of Canada, and within a radius of 100 miles there is a population of some 20,000,000, about half the population of England and Wales.

With such a great consuming area in its immediate environs, the importance of the foodstuffs is at once apparent. It is for this reason that the Manchester market is one of the largest and most important in the world.

Smithfield Fruit and Vegetable Market covers six acres and is the largest of its kind in the United Kingdom. Other markets owned by the corporation cover 27 acres. There are also provided, adjoining the Ship Canal, extensive magazines for cattle and cold storage facilities for storing chilled and frozen meats.

We spent the morning in looking over the fruit, vegetable and produce market. The party was divided into groups with well informed guides, and was shown the produce in the market and the methods of carrying on business. From here we went to the tobacco factory of the Co-operative Wholesale Society, where every operation in the making of cigarettes, cigars, plug, twist or other forms of tobacco was shown to us in detail and before leaving we were presented

with a substantial box of cigarettes and also one of cigars.

We next saw the buying room of the C.N.W.S. where a number of products were spread out for our inspection, also samples indicating the standards which require to be met for their purposes. We next proceeded to lunch in the great Assembly Hall at which we were addressed by two of the directors, Mr. Bradshaw and Councilor Sutton, who told us something of the history of the cigarette movement which has grown from a small organization of 48 affiliated societies to one with over 1,300, and resources exceeding \$227,000,000.

(To Be Continued.)

When Radio Is Expensive

Responsible For Lost Sleep On Part Of Devotees

Radio has saved the world \$50,000,000, says General Manager Barnard, of the Radio Corporation of America. What is the value of the sleep it has cost the world?

There is no question but that it is one of the greatest troubles with the radio. It causes a woful loss of sleep on the part of its devotees.

Take a man and a woman who must be at work by 7:30 or earlier in the morning, who might not stay up with the radio until 12 or 1 o'clock, and this form of amusement is expensive. The expense is not in actual dollars and cents at the time, but in lost rest, reduced energy and, in the end, a breakdown of health.

Canadian Business Conditions Are Good

Report For End Of First Quarter Shows Business At High Level

At the end of the first quarter of the year Canadian business was moving on a higher level. Out of ten indicators of conditions reported by the Dominion Bureau of Statistics one is unchanged as compared with last year, and the others are all higher.

Cool output remains at the same figure, while employment, pig iron, steel, bank clearings, car loadings, building permits, imports of wheat and coke are higher, from one to twenty-eight points.

Winnipeg Newspaper Union

Traveling 120 Miles An Hour

A development of the new type of aircraft for coastal defense and naval offense was reached when the Blackburn Ripon II, fitted with a 500 horse-power Napier-Lion motor, flew over the Humber river and dropped a torpedo within 100 yards of a target.

The machine accommodates an observer as well as a pilot and mounts a torpedo within 100 yards of a target. It can fly more than 200 miles an hour, carrying a load of 1½ tons, can climb to several miles above ground level at high speed, fly slowly at practically stalling speed and be controlled when actually stalled.

Construction of a new fighter, which until recently was on the air ministry secret list, also was given. It is a Lyncock single seater with a 200 horse-power motor and is an experiment to show that a really efficient fighter can be produced with less than half the motorpower normally used.

Canadian Exhibits Abroad

Will Place Canadian Exhibits Throughout the British Isles

Major J. G. Parmelee, assistant deputy minister of trade and commerce, is sailing for England in connection with the installing of an extensive programme of exhibits throughout Great Britain with a view to further expanding the dominion's trade.

The visit of Major Parmelee is a result of the enlargement of the exhibition branch which has recently been taken over by the department of trade and commerce.

Among the large centres in which empire exhibitions will be held during the present summer are: Aberdeen, Birmingham, Belfast, Bradford, Bristol, Hull, Leicester, Manchester, Newcastle, Portsmouth and Plymouth.

Surveying Air Mail Route

A survey will be made this year for a Canadian air mail route between Montreal and Winnipeg. This will consist of determining the best routes and locating landing fields. Recent announcement of four air mail contracts between points in Eastern Canada forecast more extensive operations along this line at an early date.

To read all the United States laws would take eight years and four months of steady reading, eight hours a day, counting in Sundays and holidays.

## SUNDAY SCHOOL LESSON

JUNE 3

JESUS FACING BETRAYAL AND DEATH

Golden Text: "Not what I will, but what Thou wilt."—Mark 14:36.

Lesson: Mark 14:1-42.

Memorial Reading: Psalm 22:1-5, 18, 19.

Explanations and Comments

The Announcement Of The Betrayal.—As Jesus read his twelve disciples were eating the paschal supper. Jesus suddenly said, "Verily I say unto you, One of you shall betray Me, even he that eateth with Me." With great amazement the disciples heard this startling prophecy. One of them, one of that little band whose lives had been so closely bound with Christ, was to be guilty of so infamous a treachery!

"Is it I?" one by one they questioned. The form of the Greek implies a negative answer, as if each one said, "Surely it is not I!" "Who hath said about the world of his own heart, 'I will not do this'?"

Each with bated breath murmured, "Is it possible that it is I?" This is the right attitude for every follower of Christ. Let us read our Lord's words in this spirit, asking ourselves what they mean for us, how they apply to us.

In one of The Twelve, he that dipped with Me in the dish," Jesus said. The dish was the one containing the sauce of bitter herbs. No doubt all were doing this, and the words only emphasized the treachery of the betrayer. To John, Jesus indicated that it was Judas, John 13:26.

For the Son of Man goeth to His death, as it is written of Him. The cross was not an accident; the Lamb was slain from the foundation of the world. But was unto the man through whom the Son of Man is betrayed? good were it for that man if he had not been born. The last sentence is a proverbial expression for the most terrible destiny, "forbidden to be buried." "Dante's estimate of the turpitude of Judas' crime—beneath the traitor's feet the gates of hell are opened." "The depths of the Inferno"—is probably a truer expression of the horror of his deed felt by the Christianized conscience than are the modern attempts to explain away his guilt!"—Wm. A. Grist.

New Bombing Plane Tested

British Machine Heavily Loaded

Travels 120 Miles An Hour

A development of the new type of aircraft for coastal defense and naval offense was reached when the Blackburn Ripon II, fitted with a 500 horse-power Napier-Lion motor, flew over the Humber river and dropped a torpedo within 100 yards of a target.

The machine accommodates an observer as well as a pilot and mounts a torpedo within 100 yards of a target. It can fly more than 200 miles an hour, carrying a load of 1½ tons, can climb to several miles above ground level at high speed, fly slowly at practically stalling speed and be controlled when actually stalled.

Construction of a new fighter, which until recently was on the air ministry secret list, also was given. It is a Lyncock single seater with a 200 horse-power motor and is an experiment to show that a really efficient fighter can be produced with less than half the motorpower normally used.

Canadian Exhibits Abroad

Will Place Canadian Exhibits Throughout the British Isles

Recent announcement of four air mail contracts between points in Eastern Canada forecast more extensive operations along this line at an early date.

To read all the United States laws would take eight years and four months of steady reading, eight hours a day, counting in Sundays and holidays.

## Rockets Will Propel New Plane

Pilot Plans Altitude Record and Return Trip By Parachute

The new rocket-propelled aeroplane is not going to Mars or other sidereal destination, but only to the roof of this world's atmosphere. If it gets back safely, a more powerful one will be constructed for a trip across the Atlantic, which, its designers figure, can be made in four hours.

The Opel Works, at Kassel, Germany, which is planning the experiment, and has engaged Anton Haab, German war flier, to act as pilot of the aeroplane, says that it will be propelled by the Valders-Sanders system of rocket propulsion, which should carry it well above an altitude of 26,000 feet. The plane will weigh 550 pounds. It will be equipped with a battery of rockets of 100 horsepower each, and will be propelled by the pilot during the flight, also with oxygen containers and masks.

The plane will not be shot into space, but will take off at an initial speed of 37 miles an hour, which will later be increased to 245 miles an hour, according to an altitude of 25,000 feet, on the assumption that scientific calculations are correct, and that beyond 26,000 feet fog and storms do not exist and blue skies and mild easterly winds prevail.

No attempt will be made to penetrate beyond the earth's atmospheric strata, which, it is feared, is a cold void in which living beings would be unable to exist.

After carrying out meteorological observations the pilot will effect a parachute landing, another parachute carrying the plane earthward.

### CHAPTER XXIV.—Continued

With the letter in his hand Jack sat looking at his polluted house—his poor desolate, violated home, the emblem of his own life. He had built this house with his own hands, lovingly, taking pleasure in driving every nail and fitting every board. And now—and now—it had been with his life—he had lived it cleanly, decently.

Try as he would, Jack could not believe that Helmi had forgotten him or been unfaithful to her marriage vow. If the worst he feared was true, it was some racial fault in her—Helmi had not aimed as an individual. What did he know of her traditions? He felt he knew her but little, although she was his wife. Nothing could alter that—she was his wife.

A dog came whimpering to the door. As Jack opened it the sobbing animal came in, its head bowed, its eyes red-rimmed. Jack recognized the animal—the crazy Englishman's dog. Mrs. McMann said the Englishman had stayed at his house six weeks before. Here was the proof, and this explained the letter.

"Arthur Warner," Jack had never heard his name. He had seen him though, a strange, uncouth, unshaven fellow.

Restraint a first impulse to drive the dog away, Jack coaxed her to come in, which she did, shivering. Her feet were sore, her nose hot. Jack went to the butcher shop and bought her some meat, which the hungry animal accepted gratefully. The dog was not to blame, whoever else might be.

The butcher told him about the dog. "The crazy Englishman had shot at his dog," but, he said, "he was named, and it seems he could not bring himself to shoot her. Old Sam looked after her until he got hurt and had to go to the hospital. Yes, sure, I'll give her bones. It's real good of you to be provident for her. The Englishman wasn't any friend of yours either, was he?"

One resolve Jack arrived at—he must get out. He could not spend a

## Cute in a Baby—Awful at Three—and it's Dangerous

by Ruth Britain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old, and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Pinching the sleeve over the mouth, attacking the teeth, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain strength and health.

Castoria is a perfectly vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine.

W. N. U. 1735

in a place where you would not be pleased to find her."

"I don't care where she is—she is my wife, and I will never believe that she had done wrong unless she told me so. I know her better than you do."

"I am sorry for you, Mr. Doran, and that is why I am so patient with you. This Milander girl has gone back to her old associates, the Chinese. She is in one of the all-night eating-houses. I suppose you know what it means when a white girl goes into one of these places."

Jack sat staring at him. "Who was your friend who saw her there?"

"I would rather not tell—it is not necessary that I should—and he wrote in confidence. He knew I was interested. She evidently tried of the quiet life here—the girls crave excitement. There was some talk about her and the Englishman who owns the bungalow at English River. He stayed with her for a week before he enlisted. That is common talk at the mine. Men who are going to the fight, you know, like to take their fling."

He did not need to hurt his own thumb now—Jack Doran's face was enough. It had grown suddenly old and aged and full of hatred. His nostrils quivered like those of a race horse.

He was about to go, but the magistrate waved him to a seat. "Mr. Doran, you were very indignant with me a year ago or a little less, when I dared to advise you. You were quite indignant, and of course I am ready to admit your feelings at that time were very creditable, very creditable—mistaken, but creditable. Since then you have had a bitter lesson, a very bitter lesson. I do not harbor any ill-will on the contrary, I was still ready to be your friend. I was your friend, even though you scouted my friendship." Cut blackwood leaved over, and his voice fell. "A man in my position does not expect thanks; we do not get thanks, but that is quite all right. We do not expect thanks, but I hope you see that I was trying to befriend you."

(To Be Continued.)

It Will Relieve a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Eclectic Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it always relieves the irritation in the throat. Try it and prove it.

### Britain's War Library

Contains 40,000 Volumes and a Thousand Added Each Year

"London does not parade the more enduring work of its subjects," writes a correspondent in "John O'London's Weekly." "Those who labor for posterity do so in small studios, in little-known laboratories and in the quiet studies of private houses. So it is with the Library of the Imperial War Museum which is housed in what still has the outward appearance of a select Queen's Gate mansion. This Library, which is the only British national collection of books devoted to the European War, will to unborn ages present a detailed diary of what was, when all is said, the greatest event in the lives of the present generation. Today, with the Library still in its infancy, it comprises already some 40,000 volumes and pamphlets. At least 1,000 volumes a year are being received, and the list shows no sign of diminishing."

Manitoba Wheat Pool Elevators A new elevator every two days has been the record established by the Manitoba Wheat Pool since building operations began this spring. Close to eighty new elevator points have been organized this year and new elevators will be erected at nearly all these points.

Magistrate was in and in shook hands kindly—too kindly! Jack judged from his manner that he had some damaging evidence and that he was going for her going. "I came home today," Jack began at once, "expecting to find my wife, but they tell me she has gone to the city. I expected to be home a month earlier, but was delayed in the north. I can find no trace of her, nor do I know anything about her?"

"I did not know she had gone, until today," said the magistrate. "I had a letter from a friend of mine who saw her in the city."

Jack started eagerly. "Where in the city?" he asked. "There tonight," the magistrate rubbed the bristles on his chin with a distinctly soiled forefinger, then with one thumb he pressed back the cuticle on the other until it hurt. He loved to do this. When he couldn't hurt anyone else he hurt himself. "I wouldn't try to find her, Mr. Doran, if I were you. She is

"The wonder metal of the age" is a fitting term for Aluminum. It is lightweight, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package.

### THE WALKING STICK

Appears To Be Doomed To Pass Into The Limbo Of Forgotten Things

The walking-stick, so long the symbol of the Englishman at home or abroad, apparently is doomed to pass into the limbo of forgotten things—or discarded things. A writer in the London Daily Express, after relating how thousands of walking-sticks are annually left in trains and street cars by absent-minded travellers, and that he sold at auction with other unclaimed articles, decides that the day of the cane has passed.

A walking-stick, I suspect, hates to be the despised appanage of a generation which never walks at all, he writes. The heart of a walking-stick is broken as soon as it is born.

The first walking-stick was a branch wielded by the ape-like man or the man-like ape in self-defence. Its evolution through the ages is a theme worthy of Hazlitt or Lamb or Bechomber.

At least six volumes would be dedicated to the Irish shillelagh. My first walking-stick was a black thorn which my father cut down for me out of a hedge in County Down.

Then came the memorable summer day when my father showed me my own blackthorn growing in a hedge. I begged him to cut it for me at once.

"No, James," he said with a whimsical smile, "it will not be ready to cut until Christmas!"

At least once a week we stealthily stole a glance at it, and always my small heart throbbed with delight in knowing that it was safe and secret. My father cut my blackthorn for me on Christmas day and dressed it for me in the shape of a craftsman.

Alas! We walk no more, and the walking-stick is a dandified ornament. It is anachronistic in this age, that despises Shank's mare.

But I comfort myself with the thought that there are still blackthorns in the hedges. Perhaps some day this train-borne, tram-borne, bus-borne, bike-borne, and motor-borne era will rediscover the romance of tramping. Men may walk once more!

### Recipes For This Week.

(By Betty Barclay)

TOASTED RAISIN SANDWICH  
½ cup chopped American cheese.  
½ cup nectars, raisins.  
6 drops tabasco sauce.

Bread.  
Pump raisins, drain and chop, using a coarse cutter. Blend raisins with cheese and spread on thin buttered slices of bread. Put slices together as a sandwich and toast on both sides. Serve hot.

VANILLA JUNKET ICE CREAM  
(Two Quarts)

1 quart milk.  
½ pint cream.  
1 cup sugar.  
2 junket tablets.

1 tablespoon vanilla.  
1 tablespoon cold water.

Mix milk and cream together, and warm to lukewarm—not hot, then add sugar and vanilla. Dissolve junket tablets in the cold water, add to the milk, stir well a moment, then pour immediately into the freezer can, and let stand in a warm room until firm—about 20 minutes. Place can in freezer, pack with ice and salt and freeze slowly to a thick mass, then finish freezing rapidly.

Crossword Puzzle For Blind

For the blind, a crossword puzzle has been produced in Paris. It consists of a piece of stiff cardboard made of many lines of individual squares, in which the blind can "peg" letters that make up words. Squares marked by cross lines take the part played by the solid black squares of ordinary crossword puzzles. Directions are given in Braille printing.

Canada Consumes Much Beef

At present Canada consumes 85 per cent of the beef cattle produced in the Dominion, the other 15 per cent being marketed outside the boundaries of Canada, according to H. J. Speers, of Winnipeg, addressing the Alberta Cattle Breeders' Association.

For Hay Fever—see Minard's.

## Teeth and Health

Issued by The Canadian Dental Hygienists' Association  
By The Saskatchewan Dental Society

### PRE-NATAL DIET

There is a phrase respecting Motherhood "for every child a tooth"—which is to say that during the period of formation of the little life certain changes take place in the mother's teeth causing them to decay and become easily lost. And this is so. But why?

For the rearing of the little structure that is so quietly proceeding, the little bone-builders, in their construction of the bones and teeth, depend chiefly on the calcium salts. Should the mother's diet be deficient in these building stones, the little workmen are obliged to go to the only other available sources of supply, the bones and teeth, to meet their wants. Robbing Peter to pay Paul—if you will—not the little structure must be reared at all costs. In such cases the mother's teeth are so structurally weakened as to invite disease.

Not only to avert this disaster to herself, but keeping up the welfare of the coming infant, and remembering that she must contribute generously towards the influence that will make for normally developed teeth in her offspring, the expectant mother should select her diet with the utmost care. Hence she should choose plenty of lime-containing foods—milk, eggs, cereals, the leafy-vegetables and fresh fruits.

Following birth also, the demand for calcium salts as well as those developing in the nursing child.

Moreover, it should be stressed that if the teeth are of good quality, the infant should at this time be naturally fed. The ravages of tooth decay have been close to be much greater among children who as infants had been artificially fed.

The expectant mother should take at least a quart of milk a day in addition to her other food. This will ensure a proper start of the teeth in the jaws of the infant at birth and as well the proper bony development of the child generally.

### Little Helps For This Week

"One that prayed to God away."  
—Acts x. 2.

Look up! Look up!  
A Father's loving eye overlooks all; Nay, more—He all upholds, however small.

Unknown to Him a sparrow cannot fall.

Look up! Look up!  
—Anna Maria Sargeant

Alas! never forget that Heaven reaches down close—quite close—to earth, so that whoever raises his head in a right manner is sure to find himself in Heaven with our gracious God and all His holy angels, even though our blind eyes cannot perceive them.

Looking up is our strength.  
—William Ellery Channing.

Miller's Worm Powders are the medicine that doctors are found suffering from the ravages of worms. They immediately alter the stomach conditions under which the worms subsist and drive them from the system, and at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

A reliable antiseptic—Minard's.

Farming Prospects Are Good  
Prospects for 1928's farming record are excellent. Sales of implement and machinery houses are far above last year. It has been practically impossible to supply the demand for small tractors, dealers report, and with a fair crop, sale of combined reaper-threshers will be at least double that of last year.

Lost of people seem to think that the command "Thou shalt not kill" doesn't apply if the weapon is an automobile.

The shower that soils a woman's new bonnet is a rain of terror.

## HERCULES

PERMANENT BUILDING PAPER

Beauty in a home may be only skin deep.

A beautiful home is not always comfortable nor easily saleable.

Hercules does for a home what wallpaper cannot. Tested and proven wind proof and damp proof, Hercules makes a home warm and dry at all times—the home that buyers seek.

Hercules comes in three grades—No. 1, 2, 3, etc.—for various needs.

How Hercules fulfils our claims is easily understood after an examination. May we send a few samples?

## Local and General Items

A costume nowadays is simply a habit one gets into.

Someone said that Hillcrest played baseball here last night, but had no opposition.

Alfalfa in the South Fork country stood over sixteen inches high the beginning of this week.

The entire policing of the province of Saskatchewan by the Royal Canadian Mounted Police commences today.

Rev. J. W. Smith has returned from Edmonton, where he attended the annual conference of the United church.

Miss Alice Forster, of Hillcrest, was one of the eleven nurses to graduate recently from the Holy Cross hospital at Calgary.

The annual meeting of the Blairmore board of Trade will be held this evening at 8 o'clock at the office of the Crows' Nest Pass Motors.

Jack Reddick and Roddy McDonald will fight at Drumheller on the King's birthday, June 4th.

Mr. V. A. Boves, assistant district passenger agent of the C.P.R., was in town from Calgary on Friday last.

Summer half holidays last the whole year round in Blairmore.

Harry W. Lunney, K.C., of Calgary, has been appointed judge of the appellate court of Alberta, to succeed the late Mr. Justice Beck.

The second edition of the Bellevue High School Club magazine is in process of making at the office of The Enterprise and will be completed about June the 10th.

The department of marine and fisheries recommends that no fishing licenses in British Columbia waters be issued except to British subjects, and that this recommendation was now in effect.

Our esteemed neighbor, the Pincher Creek Echo, has installed a linotype machine. Congratulations, sister!

Mr. R. W. Greene, assistant general agent of the C.P.R. ocean traffic, was a visitor to Blairmore last week.

Bellevue football team was defeated by the pick of Southern Alberta at Lethbridge on May 24th by a score of 2 to 0.

H. D. McMillan has disposed of the Coxley hotel to Mr. Kent, of Gleichen. Hughie has been a resident of Cowley for close on twenty-five years.

The Cardston Board of Trade will spend the sum of one thousand dollars in new buildings and other improvements to the tourist camp site.

The real optimist is the man who went to New York for a monkey gland operation to restore his youth, and bought only a one-way ticket, so he could get the benefit of a child's fare ticket on his return trip.

The Blairmore United church choir (Festival winners for the past two years) attended St. Paul's United church service in full strength on the evening of May 20th. They were greeted, as usual, by a crowded house.

Mr. and Mrs. L. R. White left here Saturday for their home in Coult.

The motorist who lets his wife drive is probably thinking of getting either a new car or a new wife.—Ex.

Rev. G. H. Villet, B.A., of Taber, has accepted a call to the Pincher Creek United church, to succeed Rev. J. H. Garden, B.D.

One editor says the worst cursing he ever heard was while he watched a big city taxi driver trying to play golf.

Mrs. G. E. C. Martin and Misses Marjorie and Kathleen Martin, of Lethbridge, were visitors here on the 24th.

MASON & RISCH PLANO, in good condition, for sale. Apply to Mrs. Joe Aschacher, Cement Street, Blairmore.

We've got so used to ducking our head when airplanes are passing that a few days ago we ducked when a little auto was approaching.

The average flapper that takes a ride nowadays should turn around and thank either the auto dealer or the manufacturer for that ride.

J. D. S. Barrett is back into the newspaper game in Alberta again, this time being connected with the Herald at Forestburg, Alberta.

About \$250,000 is tied up in motor vehicles in Blairmore, which if assessed and taxed as they should be, would reduce general taxation for school purposes about twenty per cent.

On Monday it took about half an hour for a young couple to get married at the church. And it took exactly three hours for them to get fixed up at the photographers afterwards.

What do do for a gold: Go hobe ad wude. Soag your feed in hode wadder, hoder that you cad stad if nod lebbudade ad thed go to bed ad pud od lods ob guvvers. Waig ub id de bording a well bad, Dhad gured us.

The Blairmore Board of School Trustees sat as a court of revision on Monday, when a number of appeals against the 1928 assessment were heard. The town council sat in a similar capacity on Monday evening at 8 o'clock.

At last the liquidators of the Home Bank, after a silence of four years, have made a statement that the final dividend will not be made for several months yet. They also state that the amount will be between five and eight per cent. It is some satisfaction to know that they are still alive.—Ferne Free Press.

Professor A. E. Ottewill, who for the past several years has been head of the department of extension, University of Alberta, has been appointed registrar of the university, succeeding the late C. E. Race. Mr. Ottewill's place as director of extension work will be taken by E. A. Corbett, who has been connected for some time with the work of this branch.

Stephen, nine-year-old son of Mr. and Mrs. Leslie Tustian, of Hosmer, formerly of Cowley, was drowned in the Elk river near Hosmer on Wednesday afternoon last. The little lad had been playing around an old derelict Ford that had been placed on the breakwater, when the machine overbalanced, carrying the lad with it into the raging current.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C. [Je-15]

ELECTRIC RANGE FOR SALE—Apply to Mrs. Duncan, phone 198.

FORD TOURING CAR for Sale. \$25.00 would make a good buy. We are still selling gas by the gallon or drum, and sell the best grades of oil and grease. Let us Alenite your car. We give free service on crank case, transmission and rear end. We sell 15-plate cell batteries at \$14.00, and 11-plate cell at \$12.00. Both kinds are guaranteed. Battery repairs and re-charging, tire and tube vulcanizing. We give expert service on all our lines.—W. M. BUSH, East End Service Station.
